southeastsoils@gmail.com,
mattb@southeastsoils.com,
jefft@southeastsoils.com

Dear Mr. Biegler:

A recent nematode sampling of the soil material at the location described below has been processed and found to be negative for nematodes injurious to citrus.

**Block - 139017 consisting of 10.0 acres, located at 1650 CR 470 W, Okahumpka.
(LAKE COUNTY)**

Your material, found at the location described above, meets the nematode certification requirements for **all states**.

To remain approved, all plants, plant parts (except seed), soil, sawdust, mulch, manure, potting media or peat must be California certified if brought within 100 feet of this approved yard or storage area and accompanied by a certificate.

Signs should be posted to prevent dumping of refuse in and around the area.

This is official notice that the number **3181** is your nematode certification number.

The nematode certification covering the soil material collected from the location described above shall remain in effect for a period of 1 year (12 months) and expires **September 15, 2018**, unless revoked for cause.

If you have questions regarding your certification please contact your local inspector, Charles Spriggs, at (352) 609-6182, or email: Charles.Spriggs@freshfromflorida.com.

Sincerely,

Bryan K. Benson
Assistant Chief - Plant Inspection
Bureau of Plant & Apiary Inspection

cc: Charles Spriggs, R1A2
